

## LIGHTED STARBURST OPERATING INSTRUCTIONS

**CONTROL BOX OPERATION:** Cycle through the on/off and 4 light flowing functions by continually pressing the button on the front of the control box. All lighted starburst functions can be operated with the control box or remote control.

**REMOTE CONTROL OPERATION:** The remote sensor on the back of the control box must be in the line of sight of the remote, for your remote to function properly. For optimal use, the remote should be within 20' of the control box.

1. Press the **ON** button to turn the lighted starburst on.
2. Press the **OFF** button to turn the lighted starburst off.
3. Press the **ON** button repeatedly to cycle through the steady on and 4 flowing functions.

### ADDITIONAL INSTRUCTIONS:

- Remove the lighted starburst from all packaging and unroll the lighted starburst before use.
- This lighted starburst is only functional with the provided wall adapter.
- Do not over-tighten the plastic nut when plugging the lighted starburst power cord into the wall adapter.
- The lighted starburst and wall adapter can be used indoor and sheltered outdoor.
- Light bulbs cannot be replaced; should a bulb become defective the other bulbs will continue to function.
- Discontinue use if there is any damage to the lighted starburst wires or wall adapter.

### TROUBLE SHOOTING TIPS:

If your lights are not working, the following are some troubleshooting steps to try:

- Check that the wall adapter is properly plugged into the wall outlet or power source
- Check that the lighted starburst power cord is properly connected to the wall adapter
- Check that there is power to the wall outlet or power source
- Remove the plastic tab from the remote battery compartment
- Make sure there are no cuts, frays or damages to the wires
- The remote control is not infrared and must be in the line of sight to the remote sensor on the control box

If you have tried all of the above and your lighted starburst is not working you may need to replace the wall adapter. Please contact the original place of purchase for a replacement.

### IMPORTANT SAFETY INSTRUCTIONS

- Always inspect lighted starburst and electrical cords for signs of damage or wear. If there are observable defects, immediately dispose of them and replace it with one that is in proper working order.
- Be careful not to overload electrical circuits.
- Do not secure the wiring of this product with staples or nails or place on sharp hooks.
- Do not alter the construction of the wiring in any way.
- This is an electrical product – not a toy! To avoid the risk of fire, burns, personal injury and electrical shock, it should not be played with or placed where small children can reach it.
- Do not cover with cloth, paper or any material not part of the product when in use.
- Do not operate if the power cord is damaged.
